

Three Cities Social Club

Prepared by
MBA Confidante

Monthly Performance Report • June 2026

HIGHLIGHTS

Both locations held the top spot in Google Maps for the club's core social club and networking terms this month. Google search results show two types of visibility: the map listings at the top, and the regular website results below them. Three Cities Social is showing up strongly in both.

RIVER NORTH

River North Social Club Maps #1 • Citywide #1	meet people Chicago Maps #1 • Citywide #3	social events Chicago Maps #1 • Citywide #4	coworking social club Chicago Maps #1 • Citywide #2

River North's biggest mover this month was networking events Chicago, which moved from not ranking to position 4 in Maps, a 16 position jump. That lines up with the new Networking Events in Chicago page going live on the site this spring. Chicago social club membership holds the #1 spot at that location itself, though its citywide average sits at 16, so it is a strong local result rather than a citywide one yet. On the organic side, coworking social club Chicago climbed from position 9 to 2, and Chicago coworking social club moved from 7 to 2.

Wicker Park saw the same pattern on Chicago social club membership, which moved from not ranking into the #1 spot in Maps this month, with the citywide average at 16 for the same reason as River North. Curated events Chicago improved from position 10 to 2. On the organic side, networking events Chicago social club jumped from not ranking to position 9, a 41 spot gain.

Phone calls at Wicker Park rose 45% this period, from 11 to 16. River North's phone calls dropped from 18 to 6 this period; the cause is not clear from this month's data and we are watching it. River North impressions were down 47% this period; the cause is not clear from this month's data and we are watching it. Wicker Park impressions held roughly steady, down 4% (3,368 from 3,527).

OPPORTUNITIES

Coworking social club Wicker Park dropped from position 1 to 23 in Maps this month, though it held the #1 organic spot. The cause is not clear from this month's data and we are watching it. Worth a second look next month to confirm this holds or corrects itself.

The Networking Events in Chicago page is live and doing real work already; the next opportunity is getting it into the main site navigation. Right now it is only linked from the footer, so anyone browsing the top menu will not find it. Adding it next to Programming or Membership in the main nav would put it in front of more visitors and reinforce it for search engines at the same time.

Wicker Park's Yelp listing currently shows River North's address (320 W Ohio St) instead of the correct Wicker Park address (1643 N Milwaukee Ave, Chicago, IL 60647). This is the kind of mismatch that can quietly work against Maps rankings, since search engines cross check address consistency across listings.

ACTIONS FOR THIS MONTH

Google Business Profile

Correct the Yelp listing for Wicker Park. It currently displays the River North address and should be updated to 1643 N Milwaukee Ave, Chicago, IL 60647, with the Wicker Park phone number confirmed as well.

Google Business Profile

Ask two or three members at each location for a Google review. Encourage them to mention which location they visited and what brought them in, naturally. Reviews that name the specific location and activity are read by both search engines and AI as a relevance signal, and carry more weight than a general five star rating.

Your Website

Consider adding "Networking Events in Chicago" to the main site navigation.

If You Only Do One Thing This Month

Get the Wicker Park Yelp listing corrected. It is actively showing the wrong address to anyone searching Yelp for that location right now, and it is a five minute fix with an immediate payoff.

Interested in Done-For-You Support?

I offer a done-for-you option for clients who want their Google Business Profile and website kept consistently active without managing it themselves. Monthly posts, photo uploads, questions and answers, and website content updates are all handled on your behalf. If that sounds like something that would take a task off your plate, just reply to this email and I will send over the details.
